Doctor Amin Alipour
October 2021

On line 20 in index.js please replace “xxxx” with “Remember1!” (see below)

```
16 var transport = nodemailer.createTransport({  
17   service: 'gmail',  
18   auth: {  
19     user: userEmail,  
20     pass: "Remember1!" // get this password  
21   }  
22 });
```

Feedback on team dynamics:

1. How effectively did your group work?

- As a team we worked well together. We communicated at least daily about the project and meet up to work together a few times in person and more times online.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

- Allen is a good team member and takes orders very well. Allen does not feel the need to be in control at all moments and allows creative flexibility on things he is not working on. Allen was unfamiliar with NodeJS going into the project but he picked up on it quickly and provided great support on the project

3. What did you learn about working in a group from this project that you will carry into your next group experience?

- Communication and accepting other's ideas is a lesson that I learned through this experience. Sometimes Allen and I disagreed on the path to take forward but by communicating, we always came to the best solution which was usually a combination of both of our plans.
